

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY REGION 7

11201 Renner Boulevard Lenexa, Kansas 66219

OCT 1 4 2020

Re: Martha Rose Chemical, Holden, Missouri - EPA Site ID: MOD980633069

Dear Property Owner:

On June 30, 2020, representatives of the U.S. Environmental Protection Agency collected indoor air and sub-slab samples from your property as listed below. These samples were collected to evaluate vapor concentrations in indoor air at and beneath your building. The contaminants associated with the ongoing site investigation include tetrachloroethene (PCE) and trichloroethene (TCE). The samples were submitted for laboratory analysis of volatile organic compounds, including the site-related contaminants noted. Results from these sampling events are summarized in the table below.

Sample Results:			PCE	TCE
(b) (6)	Holden, Missouri		$(\mu g/m^3)$	$(\mu g/m^3)$
Resident Indoor Air Removal Management Level Resident Sub-Slab Removal Management Level			42 1,400	67
Indoor Air	8580-22	6/30/2020	ND	2.0
Sub-Slab	8580-21	6/30/2020	ND	0.33

Notes: Sample ID = Sample Identification # $\mu g/m^3 = Micrograms per cubic meter$

ND = Not detected

Indoor air sample 8580-22 collected on June 30, 2020, from the interior of your home indicated a detection of TCE of $2.0~\mu g/m3$. Although this detection does not exceed EPA Resident Indoor Air Removal Management Level, additional assessment of indoor air is recommended. As previously discussed, multiple rounds of sampling are anticipated to monitor concentrations. The EPA will be contacting you regarding subsequent future sampling events.

This information is being provided to you in accordance with Section 104(e)(4)(B) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended. If you have any questions regarding the above, please contact me by phone at (913) 551-7449, by e-mail at schmaedick.manuel@epa.gov, or call toll-free at (800) 223-0425. Thank you for your cooperation in this matter.

Sincerely,

Manuel Schmaedick On-Scene Coordinator
